DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-28, drawn to broadcasting information to a plurality of communication devices, classified in class 455, subclass 3.01.
 - II. Claims 29-72, drawn to communication based on request and response, classified in class 455, subclass 463.
 - III. Claims 73-104, drawn to communication based on location information, classified in class 455, subclass 456.1.
 - IV. Claims 105-144, drawn to one-to-one communication, classified in class 455, subclass 435.2.
2. Inventions I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not state specific functions of the wireless broadcast system as the subcombination does. The subcombination has separate utility such as request and response, location monitoring, and one-to-one communication.

Art Unit: 2682

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to John Ciccozzi on 12/7/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eugene Yun whose telephone number is (703) 305-2689. The examiner can normally be reached on 8:30am-5:30pm Alt. Fridays off.
